

# Galvanized steel coils (HDGI)

---Panhua Group Co., Ltd.

**HDGI coil and sheet W:914mm-1250mm T:0.21mm-2.00mm**

Product name	Galvanized steel coils (HDGI)
Min. Order Quantity:	50 Metric Ton
Price Term:	FOB/CFR/CIF
Port:	Zhangjiagang/Shanghai
Price:	According to specification
Payment Terms:	T/T, L/C
Production Capacity:	50000 Metric Ton Per Month
Delivery Time:	Within 30 days after contract
Packaging Details:	standard seaworthy export packing

Shipping picture

## Brief Product Description

Since 2006, Panhua has been exporting steel coils to more than 50 countries directly, fast delivery, 500 top private company in China, Top 1 chinese exporters of PPGI to EU

## Product Attributes

Place of Origin :China

Brand Name: Panhua

Model Number SGCC

Type Steel Coil

Application Base metal for pre-painting, stationery, daily life commodity, Construction, buildings, transportation, manufacturing, vehicles, and electrical equipment and so on..

Thickness 0.21-2.00mm

Surface Treatment	chromated, regular/Minimum spangle, unoiled, slight
Width	914-1250mm
Length	According to coil weight
Standard	CQ quality, JIS G3302, SGCC, ASTM A653 CS, TYPE B, EN10142, DX51D, etc
Technique	Cold Rolled or hot Rolled
Grade	SGCC
Certificates	Certificate of conformity of Management System Certification

## Main products

Product Name	Specification	Grade
<b>Cold Rolled Full Hard Coil (CRFH)</b>	<b>Thickness:0.4mm ~ 2.0mm width:914-1250mm</b>	<b>SPCC</b>
<b>Cold Rolled Annealed Coil (CRCA)</b>	<b>Thickness:0.4mm ~ 2.0mm width 914mm to 1250mm</b>	<b>SPCC-SD SPCC-SB</b>
<b>Hot Dipped Galvanized Steel coil(HDGI)</b>	<b>Thickness:0.4mm ~ 2.0mm width 914mm to 1250mm</b>	<b>SGCC</b>
<b>Prepainted Galvanized Steel coil (PPGI)</b>	<b>Thickness:0.2m ~ 10mm width 914mm to 1250mm</b>	<b>CGCC</b>
<b>Cold Rolled Non-oriented Electrical SiliconSteel(CRNGO)</b>	<b>Thickness:0.5 mm widt :1200mm</b>	<b>50W600</b>

## Detailed Product Description

Hot Dipped Galvanized steel coils (HDGI)

SPECIFICATIONS:

- Grade: CQ quality  
JIS G3302, SGCC  
ASTM A653 CS, TYPE B  
EN10142, DX51D
- THICKNESS: 0.2-2.5mm
- WIDTH: 900-1250mm
- Surface and Treatment: chromated, regular/Minimum spangle, unoiled, slight  
Zinc coating: Z60-Z180g/m<sup>2</sup>
- COIL WEIGHT: MAX 14MT  
COIL ID: 508mm/610mm
- Applications: Base metal for pre-painting, stationery, daily life commodity,  
Construction, buildings, transportation, manufacturing, vehicles, and electrical equipment and so on.
- PACKING: standard sea worthy packing for export  
4 eye bands and 4 circumferential bands in steel, galvanized metal fluted rings on inner and outer edges,  
galvanized metal & waterproof paper wall protection disk, galvanized metal & waterproof paper around  
circumference and bore protection.
- Payment: TT/ LC at sight
- Country of Origin: China
- Yearly capacity: 900,000MT

Merit: superior flatness & good thickness tolerance control by ABB/Siemens Automation; strong adhesion between coated zinc and steel surface; fine tuned passivation against white rust; Top2 Chinese exporter to Brazil and Iran;

## Company Profile

In 2004, Panhua Group Co., Ltd was incorporated by Mr. Xinghua Li in Zhangjiagang City, Jiangsu Province, China, with registered captial of 127 million USD. Initially Panhua consisted of 3 steel mills, namely Zhangjiagang Huada Coating Co., Ltd, Zhangjiagang Wanda Steel Strip Co., Ltd, and Jiangsu Huasheng New Building Materials Co., Ltd. All these 3 mills were fully invested by Mr. Li in 1999, 2002, and 2004 for producing PPGI, GI, and CRC respectively. Before the mergence of Panhua Group, flat steel sales under brand of Panhua had already gone throughout China along with numerous honors and topl domestic market share among all privately owned Chinese steel mills. After 2006, Panhua further set up several subsidiaries in other business divisions such as real estate, shipping terminals, metal mines, and commercial banks.

In 2008, Panhua started to expand its flat steel industry by building a new mill in Chongqing City, Western China. Chongqing Panhua Steel Strip Co., Ltd now forms the same capacity as our mills in Zhangjiagang City, 1.5 million Mt of steel coils per year, but will start to output more in 2011 and widen the existing scope of supply. Head office of Panhua is located in Zhangjiagang Free Trade Zone as well as Jiangsu Yangtze International Chemical Indutrial Zone. It's 200KM away from Shanghai International Airport.

Today's Panhua possesses about 10 square kilometers of land and 3400 employees in total. By turnover, Panhua Group is ranked among Top500 Chinese Companies. Panhua's manufacturing and management systems have past ISO 9001:2000 and ISO 14001:2004. We have established labs close to all processing lines and cold rolling mills to ensure quality control and environmental protection of mass production. We've also established strategic alliances with Top10 state-owned steel mills to achieve mutual beneficial cooperation on stable and qualified HR supply. Panhua is quickening its steps to conduct integrative operation. We are making continuous efforts to provide you cold rolled steel coils, galvanized steel coils, prepainted steel coils, and all dimensions of steel sheets to meet end users' demands by cut-into-length and slitting lines. Our tandem and single stand cold rolling mills are fully imported from USA, Germany, Japan, and India. Equipped with ABB and Siemens automation, all our equipment can offer you accurate dimensions, minimized tolerance, superior heat & corrosion resistance, and aesthetic appearance.

Since 2006, Panhua has been exporting steel coils to more than 50 countries directly. Our long term supply extends to USA, UK, Germany, Italy, Spain, Belgium, France, Poland, Greece, Ukraine, Belarus, Russia, Turkey, Egypt, Saudi Arabia, Iran, Ethiopia, Niger, Brazil, Colombia, Chile, Peru, Australia, New Zealand, etc... We maintain a relentless pursuit of improvement in every critical performance measure so as to serve comprehensive customers throughout the world. Panhua has always put itself in its customers' position and our brand has been suggested and promoted by worldwide wellknown traders like Stencor, MAC Steel, Thyssenkrupp, Interfer, Primex, Coutinho & Ferrostaal, Midland, Balli, LN Metal, SK, Hyundai, Samsung, Daewoo, and Marubeni Itochu. Panhua has devoted itself to social charity causes with regular donations to the "Hope Project" to build up Hope Primary Schools in Sichuan Province and help students complete their education in schools and colleges. Growing together with society and giving back to society is one of Panhua's values. Panhua is full of vigor and potential. We believe and pursue quality, strength, and opportunities. We are always looking towards the future with confidence and welcome your sincere cooperation
