

## Custom Made Cold Forged and CNC Turned Parts

### Advantages of Cold-Forged :

- High precision and accurate shape
- Excellent surface quality
- Improved mechanical characteristics
- Considerable reduction of material
- Limited machining time

### Produce Capabilities :

- General industrial applications cold forged and turned parts
- Multi-forming process products with precision machining
- Standard and Non-Standard Cold Forged fasteners parts
- Various thread forming and tapping machining
- Automotives & Motorcycle parts
- Shafts & special-headed parts
- Cold Forging Bevel Gears
- Screw machined products
- Engineering components
- Electric motor parts
- Tubular parts

### Material :

#### Steel :

JIS 1006~1050, S10C~S45C, SCM415~440, 6150,  
SAE 8620 AISI 1010, 1015, 1020, 1025, 1030, 1035, 1040, 1045, 1145, 4140,  
4130, 4145

#### Aluminum:

Al5052, 5056, 6063, 1070, 1100, 6410

#### Seamless Pipe:

STKM11A ~STKM18A, STKM11B~ STKM18B, STKM12C~ STKM18C  
SS400, S302, S304
