

Overview

Quick Details

Standard: ASTM, AISI, DIN, EN, GB, JIS

Place of Origin: Zhejiang, China (Mainland)

Brand Name: Ehase-Flex

Model Number: 304

Type: Stainless steel tube, Pressed Type, Non-Pressed Type, Elbow Type

Steel Grade: 300 Series

Application: For Gas line system

Certification: ISO, CSA

Welding Line Type: Nut connection

Size: 3/8"-1"

Length: 500/700/1000/1200/1500/2000/3000

Appearance: Coating or original

Test: 100% test before delivery

Material: Stainless Steel 304/316

Rated Working Pressure: 1/2psi

Packing: Length or Roll

OEM or ODM: Allowed

Certificate: CSA, ISO

Supply Ability

Supply Ability: 30000 Piece/Pieces per Month H.S Code:8307.10

Packaging & Delivery

Packaging Details

Cartons or Pallet or Plywood Case

No Unacceptable Material Used for Packing

Port

Shanghai or Ningbo or Any Port in China

Lead Time :

Quantity(Pieces)	1 - 10000	>10000
Est. Time(day)	25	To be negotiated

Product Description**CSA Corrugated Stainless Steel Gas Connector Hose****CSA Approved****Application:**

Gas Connector For gas line system in house and commercial building, supplying an effective and safe way to the gas line system.

Features:

1. Stainless steel to anti corrosion
2. Easy installing in narrow place
3. Shockproof in earthquake
4. Directly buried in wall without other protection
5. Easy intalling, only tightening

Specification

SIZE	3/8"(10A)	1/2"(15A)	3/4"(20A)	1"(25A)

Our Features

Simplicity

Installation is quick & easy.
Configuration or relocation of previously existing gaslines is simplified.
Eliminates labor and time of intensive cutting, threading and measuring of hard pipe.
Varieties of EHASE-FLEX lengths give you comfort choices.
No bending tools is necessary.

Profitability

Install 5 EHASE-FLEX gas lines in the time it takes only one hard pipe armover for gas.
Fewer people needed to install EHASE-FLEX compared to hard pipe installations.
Simplify and streamline your present labor force. Work more jobs utilizing your same work force since less people and time are needed installing EHASE-FLEX.
Fewer fittings needed means less insallation costs, and more cash flow for contractors.

Flexibility

The minimum bending radius is 3"(76mm), so EHASE-FLEX can be installed easily in narrow or confined spaces.
Allows you to easily adjust to last minute changes in blue prints or construction obstacles.

Safety

Corrugated tube is made of AISI 304, AISI 316 and AISI 316L stainless steel.
Far Fewer joints, which reduces potential joint leaks, compared to conventionnal rigid pipe system.
Tube connectors are made by brass and rupture pressure is over 1,420 psi.
EHASE-FLEX gas lines are 100% factory tested and ready for installation.
100% non corrosive.

THE INTERSEC Dubai

- High producing capacity with timely delivery. Normally, less than 25 working days.
- Professional researching, developing team and equipments, can design and manufacture as customers' requirements.
- After-Sales promise is respond within 4 hours and reach the site within 48 hours for domestic user, respond within 6 hours for overseas user.

FAQ

Q : Are you trading company or manufacturer?

A: We are **manufacturer of** expansion joint, flexible joint, flexible sprinkler hose, flexible tube, corrugated gas connector, spring absorber with more than **40-year experience**.

Q: Do you have products catalog?

A: Yes, we have. Please tell me your email or instant messenger, we will send our catalog.

Q: Can you provide drawings and technical data?

A: Yes, our professional technical department will design and provide drawings and technical data.

Q: Do you provide samples? Is it free or charged?

A: Yes, we can offer sample free but shipping charges covered by customer.

Q: Have your products been exported?

A: Yes, they have been exported to USA, France, Australia, Peru, Chile, Brazil, Uruguay, Russia, UAE, Saudi Arabia, Oman, Egypt, Kenya, Serbia, Vietnam, South Korea, Indonesia, India, Thailand, Pakistan, Philippines, Singapore, HK...

Q: How long is your delivery time?

A: Depends on QTY, but normally no more than 20 working days.

Q: Can the products be manufactured by customer's requirement?

A: Yes, the specifications stated above are the standard ones, we can design and manufacture as requirement.

Q: Visting company is allowed or not?

A: Yes, we welcome customers visiting our company. We are located in Hangzhou, Zhejiang Prov., China
